SUBJECT INDEX
Volume 9 Numbers 1–6

A

Abstracts, 29, 97, 209, 223, 250, 310
Acidosis, during cardiopulmonary arrest, 22
Amrinone, intravenous therapy: nursing implications, 336
Angioplasty, percutaneous transluminal, reducing pain and discomfort following (applied research), 150
Arrhythmia
  transtelephonic surveillance, hospital-based, 178
  in Wolff-Parkinson-White syndrome: discharge planning, 243

B

Blood gases, pulse oximetry measurements, 107
Book reviews, 28, 60, 63, 106, 155, 177, 252, 279
Breathing exercises, post-open heart surgery, 190

C

Carbon monoxide poisoning: hyperbaric oxygenation preparations, 143
Cardiac output, decreased: collaborative diagnosis, 202
Cardiac surgical procedures, nursing responsibility levels for, 98
Charge nurse, salary differential controversy, 164
Chest physiotherapy (CPT), evaluating effectiveness, 68
Children. *See Pediatric*
Coma, child: factors affecting intracranial pressure, 216
Complications
  hemodialysis, preventing, 210
  hypoplastic left heart syndrome, preventing, 88
  preventing: a positive nursing image (editorial), 127
Creativity (editorial), 3
Critical care unit, which patients get the beds?, 288

E

Education
  family
    interviewing strategy, 46
    parents of critically ill children, 344
  nursing
    for comprehensive pulmonary card unit, 54
    cooperative education as recruitment technique, 119
  patient
    breathing exercises, post-open heart surgery, 190
    post-myocardial infarction, 112
    Wolff-Parkinson-White syndrome: discharge planning, 243
Ethics
  nursing model addressing, 224
  patient selection for CCU admission, 288

F

Family interviewing, using circular questions, 46
Fossa, posterior, microvascular surgery in: nursing diagnoses, 156

H

Head injury, in children: factors affecting intracranial pressure, 216
Hemodialysis, preventing complications in, 210
Hemofiltration, continuous arteriovenous, nursing care plan for, 130
Hyperbaric oxygen therapy (HBOT)
  for carbon monoxide poisoning, 143
  physical changes from, 16
Hypertension, malignant, assessment, 280
Hypoplastic left heart syndrome, preventing complications, 88

I

Intuition, in nursing practice (applied research), 30

L

Liver, transplantation, nursing diagnoses, 272

M

Music therapy (applied research), 39
Myocardial infarction, post-, education programs for, 112

O

Organ donation. *See also Transplantation*
  attitudes toward, 354
Oxygen therapy, hyperbaric, assessing physical changes from, 16

P

Pediatric care
  coma: factors affecting intracranial pressure, 216
  hypoplastic left heart syndrome, 88
Pericarditis, in end-stage renal disease, assessment, 266
Psychosocial care, of cardiac transplant patient, 301
Pulmonary care unit, educational program for, 54
Pulmonary artery pressure, backrest elevation and: research analysis, 327
Pulse oximetry, increasing clinical use, 107

R

Recruitment
  critical care elective for RN students, 362
  through cooperative education, 119
Renal disease, end-stage, pericarditis in, assessment, 266
Research (nursing)
  multisite, 236
  unit-based, 170
Respiratory care, chest physiotherapy, 68
Retention strategies, increasing manager availability, 231

S

Salary, differential for charge nurses?, 164
Sodium bicarbonate, as cardiac life support protocol, changes in, 22
Software reviews, 62, 63, 97, 125, 142
Surgery
  cardiac procedures, nursing responsibility levels for, 98
  microvascular, in posterior fossa: nursing diagnoses, 156

T

Thirst, in critically ill patients, 6
Transplantation
  cardiac, psychosocial care: nursing diagnosis approach, 301
  liver: nursing diagnoses, 272
  organs supply, crisis in (editorial), 251
Trauma research nurse: developing a career option, 296

V

Ventricular assist devices
  care algorithm, 256
  new device, nursing implications, 318
  nursing diagnoses relative to, 82

W

Weight, estimates from mid-arm circumference (applied research), 75
Wolff-Parkinson-White syndrome: discharge planning, 243
